

Web Developer

The Role

E-scape interactive is expanding its web development team.

We are looking for a skilled graduate who is new to the industry, or a more experienced developer with a 2-3 of years under their belt and is looking for a new challenge.

The role involves some challenging work extending, supporting frontline CMS deployments for major financial institutions and getting the most out of existing systems along with working closely with our clients to migrate to newer systems.

Predominantly the skill-set required is ASP.NET, with some work being performed in PHP and Java/Javascript. There will also be some CSS production work required to integrate work from the production team.

The Candidate

We will endeavour to tailor the role to the particular skills of the successful candidate. Junior candidates will be offered internal training from our highly experienced team, whilst a more experienced candidate will be expected to take a more responsible position assisting in the development of the team's core skills.

Candidates must show a higher than normal interest in web technology and development and must be willing to go the extra mile to achieve their assigned goals and deadlines. Enthusiasm in the extreme is a must.

The successful candidate must also be a confident and accomplished communicator able to fit in with our highly active and integrated team and work processes.

About E-scape Interactive

E-scape interactive is one of Jersey's most established digital agencies. We have been delivering web projects since 1997 and have a diverse portfolio of UK and locally based customers. We are a team of 13 professionals offering our customers a full range of digital services from content management platforms to ecommerce solutions through to digital marketing solutions.

We are committed to providing the very highest quality of service to all our customers, with the aim of developing long-term successful relationships.

Our company is experiencing an exciting period of growth and this position offers a very exciting opportunity to the right individual.
